## Township 41 South, Range 12 West Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of the dependent resurvey of a portion of the east boundary, portions of the subdivisional lines and a subdivisional survey of section 25 of T. 41 S., R. 12 W., Salt Lake Meridian, Utah.

History of Surveys

<u>Surveyed by</u>	<u>Retr. or Resurveyed by</u>
--------------------	-------------------------------

EAST BOUNDARY

Portion	T.C. Bailey	1877
Portion	Collier and Gentry	1909

SUBDIVISION

Portion	Bailey and Burrill	1877
Portion	Collier and Gentry	1909
Portion	Collier and Gentry	1909

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 637, Utah, dated August 15, 1983.

The direction of the lines of this survey were determined by reference to true meridians established on line by direct observations of Polaris. The lines were carried forward by sustained angulation throughout the progress of the survey.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of sec. 25 as determined from tie made to U.S.G.S. triangulation station "Crater Hill (Bess)" located in the NW corner of sec. 21, T. 41 S., R. 11 W., is:

Latitude 37° 11' 07.11" N. Longitude 113° 08' 41.61" W.

The mean magnetic declination is 14° E.

Dependent Resurvey of a Portion of the East Boundary,  
T. 41 S., R. 12 W., Salt Lake Meridian, Utah

(Reestablishment of the Survey Executed by  
E.L. Collier and R. Gentry in 1909)

Beginning at the cor. of secs. 25, 30, 31, and 36, on the E. bdy. of the Tp., monumented with an iron post, 3 ins. diam., firmly set, projecting 10 ins. above ground, with brass cap mkd.

## CERTIFICATE OF SURVEY

(I) ~~(XXX)~~ Donald A. Buhler, HEREBY  
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 15th day  
 of August, 1983, (I) ~~(me)~~ have dependently resurveyed a portion of  
 the east boundary, portions of the subdivisional lines and a subdivision  
 survey of section 25 of T. 41 S., R. 12 W.,

of the Salt Lake Meridian, in the State of Utah, which  
 are represented in the foregoing field notes as having been executed by (me), ~~(me)~~ and under (my)  
~~(our)~~ direction; and that said survey has been made in strict conformity with said special instruc-  
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in  
 specific manner described in the foregoing field notes.

December 20, 1983

(Date)

*Donald A. Buhler*

(Cadastral Surveyor)  
 Supervisory

(Date)

(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
 Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the east boundary,  
 portions of the subdivisional lines, and a subdivision survey of section 25 of  
 T. 41 S., R. 12 W., Salt Lake Meridian, Utah

executed by Donald A. Buhler, Supervisory Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

January 26, 1984

(Date)

*Glen B. Hatch*

Chief Cadastral Surveyor for Utah

~~CERTIFICATE OF TRANSCRIPT~~

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in  
 is a true copy of the original field notes.

## Township 40 South, Range 23 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of a dependent resurvey of the mile between sections 25 and 36 and the survey of Tracts 37 and 38 in Township 40 South, Range 23 East, Salt Lake Meridian, Utah.

The east boundary, that portion north of the San Juan River was surveyed by A.D. Ferron in 1884 and resurveyed by Page and Lentz in 1899 and resurveyed by D.A. Buhler in 1980.

The subdivisional lines, the portion north of the San Juan River and the meanders of the right bank of the San Juan River were surveyed by Page and Lentz in 1899 and resurveyed by D.A. Buhler in 1980.

The Navajo Indian Reservation was established by E.O. dated May 17, 1884, which in part is described "up and along the middle channel of San Juan River to west boundary of Colorado ---". By an Act of Congress dated March 1, 1933, this boundary was enlarged and the west boundary of the enlarged acre surveyed by R.C. Yundt from 1940-42.

This survey terminated at the reestablished corner of sections 25, 30, 31, and 36, T. 40 S., Rs. 23 and 24 E. A portion of this boundary was resurveyed by D.A. Buhler in 1980.

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated December 20, 1983.

The directions of the lines of this survey were determined by reference to the true meridians established on line by hour angle observations on Polaris. They were carried forward by sustained angulation being supplemented by other observations on Polaris.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions. Lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of section 25, as determined from a tie made in the 1980 resurvey to U.S.G.S. triangulation station "UMA" located in the SE corner of section 11, is as follows:

Latitude 37° 16' 22.93" N. Longitude 109° 19' 50.12" W.

The mean magnetic declination as projected from the U.S. Geological Survey Magnetic Declination Map of 1980, is 13° E.

Dependent Resurvey of a Portion of the Subdivisional Lines,  
T. 40 S., R. 23 E., Salt Lake Meridian, Utah

## CHAINS

Dependent Resurvey of a Portion of the Subdivisional  
Lines, T. 40 S., R. 23 E., Salt Lake Meridian, Utah

(Reestablishment of the Survey Executed by  
Page and Lentz in 1899 and the  
Resurvey by D.A. Buhler in 1980)

Beginning at the cor. of secs. 25, 30, 31, and 36, on  
the W. bdy. of the Tp., monumented with an iron post,  
3 ins. diam., firmly set and exposed 14 ins. above  
the ground, with brass cap mkd. as described in the  
official record of the 1980 resurvey. This corner  
will now also function as corner No. 6 of Tract No.  
37 and corner No. 1 of Tract No. 38.

S. 89° 52' W., bet. secs. 25 and 36.

Over gently rolling land.

17.10 Point for Cor. No. 3 of Tract No. 38, identical with  
Cor. No. 4 of Tract No. 37.

Set an aluminum post, 30 ins. long, 2 1/2 ins. diam.,  
26 ins. in the ground, with aluminum cap mkd.

## CERTIFICATE OF SURVEY

(I) ~~(XXX)~~ Ronald K. Baugh

, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 20th day

of December, 19 83, (I) ~~(XXX)~~ have dependently resurveyed the mile between sections 25 and 36 and surveyed Tracts 37 and 38 of T. 40 S., R. 23 E.,

of the Salt Lake Meridian, in the State of Utah, which  
 are represented in the foregoing field notes as having been executed by (me), (us) ~~(XXX)~~ and under (my)  
~~(XXX)~~ direction; and that said survey has been made in strict conformity with said special instruc-  
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in  
 specific manner described in the foregoing field notes.

Two corners on the north boundary of the township were remonumented by Ferrel D. Reynolds in 1970 under the remonumentation cooperative agreement between the U.S. Forest Service and the BLM.

The surveys were executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated June 7, 1983.

The directions of the lines of this survey were determined by reference to true meridians established on line by direct observations on Polaris. The lines were carried

## Township 13 South, Range 2 East, Salt Lake Meridian, Utah

CHAINS

forward by sustained angulation being supplemented by other observations on Polaris taken throughout the progress of the survey.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of section 27, as determined from a tie made to triangulation station "SALT 1938", located in section 30, is as follows:

Latitude 39° 39' 05.23" N. Longitude 111° 40' 42.28" W.

The mean magnetic declination is as projected from the U.S. Geological Survey Magnetic Declination map of 1980 is 14 1/2° E.

	<p style="text-align: center;">General Description</p> <p>The area surveyed and resurveyed within T. 13 S., R. 2 E., varies from broken mountainous at higher elevations to rolling rocky hill and knolls at lower elevations. The elevation ranges from about 5600 to 8300 ft. above sea level. The soil varies from sandy clay loam at the lower elevations to very rocky limestone formations at the upper elevations. The vegetation consists of shadscale, sagebrush, bunchgrass and other native grasses. The area is generally covered with oak and maple, some pinon and juniper and at a higher elevation some strands of aspen and fir. The general drainage is to the NE. There is some dry land farming in section 27. Summer home subdivisional work in sections 16 and 21 and livestock grazing in section 8.</p>

## CERTIFICATE OF SURVEY

(I ~~XXX~~), Gail E. Reynolds, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 7th day

of June, 19 83, (I ~~XXX~~) have dependently resurveyed a portion of the east boundary, T. 13 S., R. 1 E., a portion of the subdivisional lines with a survey of a portion of the subdivisional lines and a partial subdivisional survey of sections 8, 16, 21, and 27 of T. 13 S., R. 2 E.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), (us ~~XXX~~) and under (my) ~~(our)~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

April 17, 1984

(Date)

*Gail E. Reynolds*  
(Cadastral Surveyor)  
Supervisory

(Date)

(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the east boundary, T. 13 S., R. 1 E., a portion of the subdivisional lines with a survey of a portion of the subdivisional lines and a partial subdivisional survey of sections 8, 16, 21, and 27 of T. 13 S., R. 2 E., Salt Lake Meridian, Utah

executed by Gail E. Reynolds, Supervisory Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

June 22, 1984

(Date)

*Glen B. Hatch*  
(Chief, Cadastral Survey Examination and Approval Staff)  
Chief Cadastral Surveyor for Utah

## CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in  
is a true copy of the original field notes.

SUBDIVISIONAL LINES

All	Joseph Gorlinski	1874
-----	------------------	------

This survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated June 21, 1982.

The directions of the lines of this survey refer to the true meridian as determined by direct altitude observations of the sun and hour angle observations of Polaris. The lines were carried forward by sustained angulation.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the cor. of Tps. 16 and 17 S., R. 5 W., on the First Guide Meridian West, as determined from a tie to National Geodetic Survey triangulation station "Aeronica", located in sec. 34, T. 16 S., R. 6 W., is as follows:

## Township 16 South, Range 6 West, Salt Lake Meridian, Utah

CHAINS	Latitude 39° 22' 38.54" N. Longitude 112° 27' 45.17" W.
	The mean magnetic declination as projected from U.S. Geological Survey "Magnetic Declination Map of 1980" is 14 1/2°.

	<hr/> <p style="text-align: center;">General Description</p> <p>Township 16 South, Range 6 West is located in Millard County, to the northeast of Delta, Utah. The terrain is generally level to rolling, with the exception of fairly steep bluffs along the Sevier River which winds westerly through the township.</p> <p>The elevation ranges from 4,600 to 4,750 feet above sea level. Most of the township is sandy, with the north-central portion having some sand dunes. Vegetation is generally sparse and consists of mostly sagebrush.</p>

## Township 16 South, Range 6 West, Salt Lake Meridian, Utah

## CHAINS

The Union Pacific Railroad and U.S. Highway 6 run NE and SW through the township. The Sevier River has been dammed in section 26 to create the DMAD Reservoir. The Delta Municipal Airport is located in section 34.

There are no permanent residents within the area surveyed.

# CERTIFICATE OF SURVEY

(I) ~~XWA~~, Gary L. Kratz

, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 21st day of June, 19 82, (I) W. W. have dependently resurveyed a portion of the Third Standard Parallel South through Ranges 6 and 7 West; a portion of the First Guide Meridian West through Township 16 South; a portion of the west & south boundaries, and a portion of the subdivisional lines with a survey of the subdivision of sections 6, 7, 18, 21, 24, 25, 26, 29, 30, and 35 of T. 16 S., R. 6 W.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), (us) and under (my) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

## Township 6 South, Range 18 West, Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of the dependent resurvey of a portion of the First Standard Parallel South through Ranges 17 and 18 West, and a portion of the subdivisional lines with a subdivision survey of sections 4, 5, 6, 7, and 8, Township 6 South, Range 18 West, Salt Lake Meridian, Utah.

The north boundary was surveyed in 1903 by Alonzo J. Stookey as part of the survey of the First Standard Parallel South through Ranges 17 and 18 West. In 1904 he surveyed the north three miles of the east and west boundaries and the subdivisional lines of the north one-half of the township. The First Standard Parallel South through Range 17 West was independently surveyed in 1925 by Andrew Nelson. The First Standard Parallel South through Range 18 West and the north three miles of the east and west boundaries of Township 6 South, Range 18 West were dependently resurveyed in 1958 by Leslie H. Godwin.

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated March 2, 1982.

The directions of the lines of this survey refer to the true meridians and were determined by altitude observations of the sun and hour angle observations on Polaris. The lines were carried forward by sustained angulation.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of section 13 of the township was determined by traverse from U.S.C. & G.S. triangulation station "Wild Mule" located in section 31, T. 6 S., R. 19 W.

Latitude  $40^{\circ} 17' 52.61''$  N. Longitude  $113^{\circ} 48' 52.53''$  W.

The mean magnetic declination, as projected from the U.S. Geological Survey Magnetic Declination map of 1980, is  $15\frac{1}{2}^{\circ}$  E.

Dependent Resurvey of a Portion of the  
First Standard Parallel South through Range 17 West,  
Salt Lake Meridian, Utah

(Reestablishment of the Resurvey Executed by  
Andrew Nelson in 1925)

Beginning at the standard cor. of secs. 31 and 32,  
T. 5 S., R. 17 W., monumented with a weathered wooden  
post, 4 ins. sq., firmly set, projecting 10 ins. above  
the ground, mkd. T5S on N face, S32 on E face and S31 on

39.95	The N 1/16 sec. cor. of secs. 7 and 8.
	<p style="text-align: center;">General Description</p> <p>Most of the area surveyed slopes gently eastward toward level alkali flats in sections 1, 11, 12, 13, and 14. The elevation is approximately 4300 feet above sea level. The soil is generally sandy to gravelly sand. Vegetation, consisting mainly of sagebrush and greasewood, is sparse on the alkali flats and light to moderate on the remainder of the township.</p> <p>Ranch buildings are situated in the SE<math>\frac{1}{4}</math> of section 5. Portions of sections 4, 5, 6, 7, 8, and 9 are under cultivation. An irrigation system is being used that pipes water from a reservoir on Deep Creek to grow alfalfa.</p> <p>Easy access to the area can be obtained from U.S. Highway 50 via a gravelled road which continues on to Ibapah. What remains of the old Western Pacific Railroad bed is now a gravelled road that runs NW and SE through the township. There are also several dirt roads throughout the township.</p>

## CERTIFICATE OF SURVEY

(I) ~~W~~, Gary L. Kratz, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 2nd day of March, 19 82, (I) ~~W~~ have dependently resurveyed a portion of the First Standard Parallel South through Ranges 17 and 18 West, and a portion of the subdivisional lines and surveyed the subdivisions of sections 4, 5, 6, 7, and 8 of Township 6 South, Range 18 West

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~W~~ and under (my) ~~W~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

February 2, 1984

(Date)

*Gary L. Kratz*  
(Cadastral Surveyor)  
Supervisory

(Date)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the First Standard Parallel South through Ranges 17 and 18 West, and a portion of the subdivisional lines with a subdivision survey of sections 4, 5, 6, 7, and 8 of Township 6 South, Range 18 West of Salt Lake Meridian, Utah

executed by Gary L. Kratz, Supervisory Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

June 22, 1984

(Date)

*Glen B. Hatch*  
(Chief, Cadastral Survey Examination and Approval Staff)  
Chief Cadastral Surveyor for Utah

## CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in , is a true copy of the original field notes.

Township 14 North, Range 4 East, Salt Lake Meridian, Utah

CHAINS	<p>The following field notes describe the dependent resurvey of a portion of the south boundary, a portion of the west boundary and portions of the subdivisional lines of T. 14 N., R. 4 E., Salt Lake Meridian, Utah.</p> <p>History of Surveys</p> <table><thead><tr><th></th><th><u>Surveyed by</u></th><th><u>Retr. or Resurveyed by</u></th></tr></thead><tbody><tr><td colspan="3"><u>WEST BOUNDARY</u></td></tr><tr><td>Portion</td><td>J.H. Martineau</td><td>1881</td></tr><tr><td>Portion</td><td></td><td>F.E. Joy 1904</td></tr><tr><td colspan="3"><u>SOUTH BOUNDARY</u></td></tr><tr><td>Portion</td><td>J.H. Martineau</td><td>1881</td></tr><tr><td></td><td></td><td>A.P. Hanson and</td></tr><tr><td></td><td></td><td>H.E. Giers 1904</td></tr><tr><td></td><td></td><td>F.E. Joy 1909</td></tr><tr><td colspan="3"><u>SUBDIVISION</u></td></tr><tr><td>Portion</td><td>J.H. Martineau</td><td>1881</td></tr></tbody></table> <p>Certain corners were remonumented by A. Nelson in 1962 and F. Reynolds in 1968, under the remonumentation cooperative agreement between the U.S. Forest Service and the Bureau of Land Management.</p> <p>The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 618, Utah, dated July 30, 1982.</p> <p>The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulation, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.</p> <p>Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record.</p> <p>The retracement data were thoroughly verified and only the true line of field notes are given herein.</p> <p>The geographic position of the standard cor. of secs. 32 and 33, on the S. bdy. of the Tp., as determined from a tie made to a standard U.S. Dept. of Agriculture, Forest Service Triangulation Station "SINKER", located in the SW 1/4 of sec. 5, T. 13 N., R. 4 E., Salt Lake Meridian, Utah, is as follows:</p> <p>Latitude 41° 54' 23.03" N.    Longitude 111° 30' 27.78" W.</p> <p>The mean magnetic declination as projected from U.S. Geological Survey "Magnetic Declination Map of 1980," is 15° E.</p> <div><p>Dependent Resurvey of a Portion of the S. ## CHAINS

(Restoring the Survey Executed by  
J.H. Martineau in 1881 and the Retracement Survey  
of A.P. Hanson and H.E. Giers in 1900 and  
F.E. Joy in 1904)

Beginning at the cor. of secs. 32 and 33, on the S. bdy.  
of the Tp., monumented with an iron post, 2 1/2 ins.  
diam., firmly set, projecting 4 ins. above a collar of  
stone, with brass cap mkd. as described in the official  
record of the 1968 remonumentation.

from which

A spruce, 20 ins. diam., bears N. 48° 30' E.,  
43 lks. dist., mkd. T14N R4E S33 BT.

A spruce, 16 ins. diam., bears N. 57° W.,  
33 1/2 lks. dist., mkd. T14N R4E S32 BT.

An iron post, 4 ins. diam., firmly set, projecting  
projecting 19 ins. above ground for a witness  
monument, bears East, 6 lks. dist., with brass  
cap mkd. Forest Reserve Bdy. Post No. 68 T. 13  
and 14 N., R. 4 E., Secs. 4, 32, and 33, with  
mkd. cross.

United States Department of Agriculture Survey  
Triangulation Station "SINKER" bears  
S. 47° 09' 36" W., 130.559 chs. dist., monumented  
with a standard brass tablet, 3 ins. diam.,  
firmly cemented into a drill hole in a rock  
outcrop with top mkd. U.S. Department of  
Agriculture SINKER 1960 Forest Service and a  
triangle. Point is located at N end of small  
ridge that bears NE and SW.

Cor. is located on N slope, 10 chs. S from bottom of draw  
that drains E. In dense stand of pine and aspen growth.

S. 88° 37.9' W., along the S. bdy. of sec. 32.

Over mountainous land, through dense timber and scattered  
undergrowth.

40.863 The 1/4 sec. cor. of sec. 32 only, monumented with a  
limestone, 25 x 10 x 4 ins., firmly set, projecting 11  
ins. above ground and plainly mkd. 1/4 on N face. There  
is no remaining evidence of the original bearing trees.

At the corner point

Set an iron post, 30 ins. long, 2 1/2 ins. diam., 24 ins.  
in the ground, and in a mound of stone, 3 ft. base, to  
top of brass cap, mkd.

1983

Deposit the mkd. stone alongside the iron post.

Cor. is located on steep NE slope, 3 chs. from base of  
hill.

Dependent Resurvey of a Portion of the S. Boundary,  
T. 14 N., R. 4 E., Salt Lake Meridian, Utah

## CHAINS

N. 89° 44.1' W., beginning new measurement.

Over mountainous land, through dense timber and scattered undergrowth.

40.894 The cor. of secs. 31 and 32, on the S. bdy. of the Tp., monumented with an iron post 2 1/2 ins. diam., firmly set, projecting 4 ins. above a collar of stone, 3 ft. base, with brass cap, mkd. as described in the official record of the 1968 remonumentation of the cors. for T. 14 N., R. 4 E.

Cor. is located at the base of steep SE slope on gentle E slope.

from which

An iron post, 4 ins. diam., firmly set, projecting 30 ins. above ground, and in a collar of stone, for a witness monument, bears S. 71° 26' E., 6 1/2 lks. dist., with brass cap, mkd. Forest Reserve Bdy. Post No 69 T. 13 and 14 N., R. 4 E., secs. 5, 31, and 32, with mkd. cross.

Dependent Resurvey of a Portion of the W. Bdy.,  
T. 14 N., R. 4 E., Salt Lake Meridian, Utah

(Restoring the Surveys Executed by  
James H. Martineau in 1881)

From the cor. of secs. 19, 24, 25, and 30, on the W. bdy. of the Tp., monumented with a limestone, 30 x 12 x 10 ins., (record, 36 x 10 x 8 ins.) loosely set in scattered mound of stone, with no visible or discernable marks on the stone.

This point is accepted as a careful and faithful determination of the original corner position by adjacent survey ties.

At the corner point

Set an iron post, 30 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, and in a mound of stone, 3 1/2 ft. base, to top of brass cap, mkd.

CHAINS  
43.876

The cor. of secs. 16, 17, 20, and 21, determined from the remains of a decomposed stump hole, along with the remains of the original bearing trees

from which

A decayed stump, bears N. 80° E., 40 lks. dist., (record, N. 80° E., 37 lks. dist.) with no visible marks.

A decomposed stump hole, bears S. 37° E., 44 lks. dist., (record, S. 40° E., 54 lks. dist.) with an uprooted decayed stump alongside, with no visible marks.

A decomposed stump hole, bears S. 18° W., 20 lks. dist., (record, S. 15° W., 20 lks. dist.) with an uprooted decayed stump alongside, with no visible marks.

A standing dead fir, 21 ins. diam., bears N. 42° W., 22 lks. dist., mkd. with a decayed open blaze and no visible marks on face.

At the corner point

Set an iron post, 30 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, and in a collar of stone, with brass cap mkd.

T 14 N R 4 E	
S 17	S 16
S 20	S 21

1982

from which

A pine, 9 ins. diam., bears S. 35° E., 53 1/2 lks. dist., mkd. T14N R4E S21 BT.

A pine, 10 ins. diam., bears N. 40° W., 15 1/2 lks. dist., mkd. T14N R4E S17 BT.

The cor. of secs. 20, 21, 28, and 29, bears S. 0° 36.1' W., 79.386 chs. dist., heretofore described. This tie was made to verify and confirm the position of the cor. of secs 16, 17, 20, and 21.

Cor. is located on SE slope, approximately 1 ch. from top of ridge that bears NE and SW and 2 chs. S of old trail road that bears N. 40° E. and S. 40° W.

N. 0° 29.9' E., bet. secs. 16 and 17.

Over mountainous land through scattered timber and undergrowth.

40.327 Point for the 1/4 sec. cor. of secs. 16 and 17, at proportionate distance, there is no remaining evidence of the original corner.

Set an iron post, 30 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, and in a mound of stone, 3 ft. base, to top of brass cap, mkd.

## CERTIFICATE OF SURVEY

(I) ~~XXX~~ Frank C. Profaizer, Jr.

, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 30th day

of July, 19 82, (I) ~~XXX~~ have dependently resurveyed a portion of the south boundary, a portion of the west boundary and portions of the subdivisional lines of T. 14 N., R. 4 E.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~XXX~~ and under (my) ~~XXX~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

1871

The following field notes describe the dependent resurvey of a portion of the west boundary, a portion of the subdivisional lines, a portion of the patented mining claims in sections 19 and 30, and a partial subdivisional survey of section 30 of Township 25 South, Range 6 West, Salt Lake Meridian, Utah.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, the Special Instructions for Group 612, Utah, dated February 16, 1982, and the Supplemental Special Instructions dated May 12, 1982.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulation, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the SE cor. of sec. 30, as determined from a tie to U.S.C. & G.S. tri-station "BMW-31", is:

Latitude 38° 35' 58.56" N. Longitude 112° 33' 42.65" W.

The magnetic declination was read at a number of stations throughout the survey and the average of the several readings was found to be 15° East.

Dependent Resurvey of a Portion of the West Boundary,

<hr/>	
General Description	
<p>The area surveyed and resurveyed in T. 25 S., R. 6 W., Salt Lake Meridian, Utah, varies from broken mountainous in the NE portion to nearly level cultivated land in the SW portion. The elevation ranges from about 6000 to 6500 feet above sea level. The vegetation consists of shadscale, sagebrush, sparse native grasses, dense pinon and juniper growth at higher elevations and some dry land farming at lower elevations.</p>	
<p>Access is by old State Highway No. 13, which crosses sec. 30 in the SW portion, with numerous other dirt and jeep trails throughout the section.</p>	
<p>The principal use of the area at this time is livestock grazing. There are 2 patented mining claims within sec. 30, one in the NE 1/4 and the other in NW 1/4.</p>	

## CERTIFICATE OF SURVEY

(I) ~~XXX~~ Gail E. Reynolds, HEREBY  
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 16th day

of February, 19 82, (I) ~~XXX~~ have dependently resurveyed a portion  
 of the west boundary, a portion of the subdivisional lines, a portion  
 of the patented mining claims in sections 19 and 30, and a partial  
 subdivisional survey of section 30, Township 25 South, Range 6 West

of the Salt Lake Meridian, in the State of Utah, which  
 are represented in the foregoing field notes as having been executed by (me), (us) ~~XXX~~ and under (my)  
~~XXX~~ direction; and that said survey has been made in strict conformity with said special instruc-  
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in  
 specific manner described in the foregoing field notes.

WEST BOUNDARY CORN CREEK RES.

N. 6 miles	Joseph Clark	1865
------------	--------------	------

The following field notes are those of the dependent resurvey of a portion of the Corn Creek Indian Reservation boundary, a portion of the north boundary, a portion of the subdivisional lines, and a partial subdivisional survey of section 3, Township 22 South, Range 6 West, Salt Lake Meridian, Utah.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, the Special Instructions for Group 612, Utah, dated February 16, 1982, and the Supplemental Special Instructions dated May 12, 1982.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulation, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record.

The distances along lines surveyed were determined by electronic measurement.

The geographic position of the southeast cor. of section 3, as computed from section line ties, made in the 1968 resurvey to U.S.C. & G.S. triangulation station "Black Ridge", located in section 34, T. 22 S., R. 7 W., is as follows:

Latitude 38° 55' 19" N. Longitude 112° 30' 12" W.

The mean magnetic declination as projected from the U.S. Geological Survey magnetic declination map of 1980, is 14 1/2° E.

E. bdy. and E 1/2			
S. bdy., Sec. 4	E. Bird	1923	

The following field notes describe those of the dependent resurvey of a portion of the north boundary a portion of the subdivisional lines and a partial subdivisional survey of section 4, Salt Lake Meridian, Utah.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, the Special Instructions for Group 612, Utah, dated February 16, 1982, and the Supplemental Special Instructions dated May 12, 1982.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulation, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record.

The geographic position of the southeast corner of section 4, as determined from a tie made to U.S.C. & G.S. triangulation station "Holden," located in section 10, is:

Latitude 39° 11' 03.34" N. Longitude 112° 17' 45.74" W.

The mean magnetic declination, as projected from the U.S. Geological Survey magnetic declination map of 1980, is 14 1/2° E.

## CERTIFICATE OF SURVEY

(I) ~~XXXX~~ Gail E. Reynolds, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 16th day of February, 19 82, (I) ~~XXXX~~ have dependently resurveyed a portion of the north boundary, a portion of the subdivisional lines and surveyed a portion of the subdivision of section 4, Township 19 South, Range 4 West

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~XXXX~~ and under (my) ~~XXXX~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

Portion	J.P. Walker	1904	
Portion		J.P. Walker	1904
Portion		E. Bird	1920
Portion	E. Bird	1920	

The following field notes are those of a dependent resurvey of a portion of the north boundary; a portion of the west boundary identical with a portion of the First Guide Meridian East; a portion of the subdivisional lines, and a partial subdivisional survey of sections 5 and 6, T. 30 S., R. 5 E., Salt Lake Meridian, Utah.

The survey was executed in accordance with the specifications set forth in the Manual of Survey Instructions, 1973, and the Special Instructions for Group No. 636, Utah, dated August 5, 1983.

The directions of the lines of this survey were determined by reference to true meridians established on line by hour angle observations on Polaris. They were carried forward by sustained angulation, being supplemented by numerous other observations on Polaris taken throughout the progress of the survey.

The distances along surveyed lines were determined by electronic measurement.

Before restoring lost corners, the lines of the original survey were retraced and a diligent search made for any evidence of the original corners. The rules of proportionate measurement were applied to ascertain the position of the lost corners after every reasonable possibility of finding direct evidence of the corners had been exhausted.

The geographic position for the southeast corner of section 5, as determined from a tie made to U.S.G.S triangulation station "Torrey 1952," located in section 8, T. 29 S., R. 5 E., is:

Latitude 38° 13' 22.61" N. Longitude 111° 22' 35.78" W.

The magnetic declination was read at a number of stations throughout the township and the average of the several readings was found to be 14° East.

Township 30 South, Range 5 East, Salt Lake Meridian, Utah

## CHAINS

Dependent Resurvey of a Portion of the North Boundary,  
Township 30 South, Range 5 East, Salt Lake Meridian, Utah

(Restoring the Survey Executed by  
Adolphe Jessen in 1891)

Beginning at the cor. of secs. 4, 5, 32, and 33, on the  
N. bdy. of the Tp., as determined from the one remaining  
bearing tree

A cedar, 30 ins. diam., bears N. 20' W., 25 lks.  
dist., with faint scribe marks.

The original stone cor., a trachyte, 18 x 12 x 6 ins.,  
plainly mkd. 4 notches on E and 2 notches on W edges, was  
found lying loose on ground nearby.

At the corner point

Set an aluminum post, 30 ins. long, 2½ ins. diam., 30  
ins. in the ground, with aluminum cap mkd.

T	29	S	R	5	E
S	32		S	33	
S	5		S	4	
T	30	S			
	1983				

Deposit the mkd. stone alongside the aluminum post.

Cor. is located 3 lks. E of a fence line, bearing N  
and S and in old trail road, bearing NE and SW.

N. 89° 15.6' W., bet. secs. 5 and 32.

Over rolling land, through scattered pinon and juniper  
growth.

19.869 Point for the E 1/16 sec. cor. of secs. 5 and 32, not  
monumented.

39.738 The ¼ sec. cor. of secs. 5 and 32, monumented with an  
iron post, 1 in. diam., extending 12 ins. above ground,  
with brass cap, mkd. as described in the official record  
of the 1920 dependent resurvey.

The original bearing trees have been destroyed.

Cor. is located 7 lks. N of cor. of fence, bears W and S.

Restoring the Survey Executed by  
Adolphe Jessen in 1891 and the Resurvey by  
Elliot Bird in 1920)

N. 89° 44.8' W., beginning new measurement.

20.065 Point for the W 1/16 sec. cor. of secs. 5 and 32.

Set an aluminum post, 30 ins. long, 2½ ins. diam., 24  
ins. in the ground, and in a collar of stone, with  
aluminum cap mkd.

## CHAINS

Cor. is located on rolling sandy land.

Dependent Resurvey of a Portion of the West Boundary  
Identical with a Portion of the First Guide Meridian East,  
Township 30 South, Range 5 East, Salt Lake Meridian, Utah

(Restoring the Survey Executed by  
Adolphe Jessen in 1891 and the Resurvey Executed by  
J.P. Walker in 1904 and the Resurvey Executed by  
Elliot Bird in 1920)

From the cor. of secs. 1, 6, 7, and 12, on the W. bdy. of  
the Tp., monumented with an iron post, 2 ins. diam.,  
extending 14 ins. above ground, and in a mound of stone,  
3½ ft. base to top, with brass cap, mkd. as described in  
the official record of the 1920 dependent resurvey.

from which the original bearing trees

A pinon, 8 ins. diam., bears N. 34° E., 80 lks  
dist., mkd. T30S R5E S6 BT.

A pinon, 6 ins. diam., bears S. 62° E., 36 lks.  
dist., mkd. T30S R5E S7 BT.

N. 0° 01.3' W., bet. secs. 1 and 6.

Over mountainous land, through pinon and juniper growth.

42.008 The ¼ sec. cor. of secs. 1 and 6, monumented with an iron  
post, 1 in. diam., extending 14 ins. above ground, with  
brass cap, mkd. as described in the official record of  
the 1920 dependent resurvey.

from which the original bearing trees

A pinon, 14 ins. diam., bears N. 65° E., 300 lks.  
dist., mkd. ¼ S6 BT.

A yellow pine, 16 ins. diam., bears N. 73° W.,  
245 lks. dist., mkd. ¼ S21 BT.

From this cor., the 1904 forest reserve bdy. cor., number  
88, bears N. 69° 08' E., 7 lks. dist.

Cor. is located in rolling sandy land.

N. 0° 06.3' E., beginning new measurement.

40.026 The cor. of Tps. 29 and 30 S., Rs. 4 and 5 E., herein-  
before described.

Dependent Resurvey of a Portion of the Subdivisional  
Lines, T. 30 S., R. 5 E., Salt Lake Meridian, Utah

(Restoring the Survey Executed by Adolphe Jessen  
in 1891 and the Resurvey Executed by J.P. Walker in 1904  
and the Resurvey Executed by Elliot Bird in 1920)

## Township 30 South, Range 5 East, Salt Lake Meridian, Utah

CHAINS

## General Description

The area surveyed and resurveyed within sections 5 and 6, T. 30 S., R. 5 E., varies from broken mountainous land along the south boundaries of sections 5 and 6 to rolling sandy pasture land in the northern portions. The elevation ranges from about 7100 to 7600 ft. above sea level. The vegetation consists of shadscale, sagebrush, bunchgrass, meadow grass and several other native grasses. There are scattered patches of pinon, juniper, yellow pine and some cottonwood trees in the creek bottoms. The pasture land is irrigated by Fish Creek, which enters section 5 in the SE corner, flowing in a northerly direction. The main use of these sections is livestock grazing.

## CERTIFICATE OF SURVEY

(I) (~~we~~) Gail E. Reynolds, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 5th day

of August, 1983, (I) (~~we~~) have dependently resurveyed a portion of the north boundary, a portion of the west boundary, identical with a portion of the First Guide Meridian East, a portion of the subdivisional lines and surveyed a portion of the subdivisions of sections 5 and 6, Township 30 South, Range 5 East,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), (~~us~~) and under (my) (~~our~~) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

August 31, 1984

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the north boundary, a portion of the west boundary, identical with a portion of the First Guide Meridian East, a portion of the subdivisional lines and a partial subdivisional survey of sections 5 and 6, T. 30 S., R. 5 E., Salt Lake Meridian, Utah

executed by Gail E. Reynolds, Supervisory Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

September 26, 1984

All	S.M. Pancake	1884	
Portion			R. Gentry, et al 1942

The survey and resurvey were executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 628, Utah, dated March 18, 1983.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulation, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a search was made for any evidence of all corners and other calls of the record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of sec. 10, determined from a tie made to triangulation station "PIERSON", located in section 8, T. 15 S., R. 13 E., Salt Lake Meridian, Utah.

Latitude 39° 31' 40.63" N. Longitude 110° 26' 17.55" W.

## Township 15 South, Range 13 East, Salt Lake Meridian, Utah

## CHAINS

The mean magnetic declination as projected from U.S. Geological Survey "Magnetic Declination Map of 1980", is 14° E.

Dependent Resurvey of a Portion of the Subdivisional Lines, T. 15 S., R. 13 E., Salt Lake Meridian, Utah

(Restoring the Survey Executed by  
S.M. Pancake in 1884)

Beginning at the cor. of secs. 10, 11, 14, and 15, monumented with a brass tablet, 3½ ins. diam., seated in concrete in sandstone boulder, tablet mkd. as described in the official record of the 1942 resurvey.

N. 0° 49' E., bet. secs. 10 and 11.

Over broken land.

16.74 South rail of D. & R.G.W. railroad track, bears N. 82° W. and curves N.

16.97 South rail of D. & R.G.W. railroad track, bears N. 82° W. and curves N.

17.20 South rail of D. & R.G.W. railroad track, bears N. 82° W. and curves N.

17.42 South rail of D. & R.G.W. railroad track, bears N. 82° W. and curves N.

19.615 Point for the S 1/16 sec. cor. of secs. 10 and 11.

Set an aluminum post, 30 ins. long, 2½ ins. diam., 24 ins. in the ground, with aluminum cap mkd.

S 1/16  
S 10 | S 11  
1983

Cor. is located 15 lks. N of fence line, bears E and W.

39.23 Point for the ¼ sec. cor. of secs. 10 and 11, at proportionate distance; there is no remaining evidence of the original corner.

Set an aluminum post, 30 ins. long, 2½ ins. diam., 24 ins. in the ground, with aluminum cap mkd.

T 15 S R 13 E  
¼  
S 10 | S 11

## Township 15 South, Range 13 East, Salt Lake Meridian, Utah

CHAINS

## General Description

Section 10 of Township 15 South, Range 13 East is situated about 2 miles west of Dragerton, Utah. The elevation varies from 6,000 to 6,100 ft. above sea level. The soil is mostly loam throughout the section.

The D. & R.G.W. railroad spur crosses the section from the main line to the west to the Sunnyside Coal Mines to the east. Utah State Highway No. 123 roughly parallels the railroad. There is a sewage lagoon disposal for the City of Dragerton in the south portion of section 10.

## CERTIFICATE OF SURVEY

(I) ~~(XXX)~~ Jerry L. Thomas

, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 18th day

of March, 1983, ~~(I)(XXX)~~ have dependently resurveyed a portion of the subdivisional lines and surveyed the subdivision of section 10, T. 15 S., R. 13 E.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), (us) ~~(XXX)~~ and under (my) ~~(our)~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

## Township 17 South, Range 6 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of the corrective resurvey of a portion of the east boundary of T. 17 S., R. 6 E., and a portion of the subdivisional lines, T. 17 S., R. 7 E., Salt Lake Meridian, Utah.

The corrective resurvey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and Supplemental Special Instructions dated February 28, 1984.

The direction of the lines of this corrective resurvey was determined by reference to the true meridian established on line by altitude observations on the sun. The distances were determined by EDM.

The mean magnetic declination as protracted from a U.S. Geological Survey "Magnetic Declination Map of 1980," is 14° E.

Corrective Resurvey of a Portion of the E. Bdy. of  
T. 17 S., R. 6 E., Salt Lake Meridian, Utah

Beginning at the cor. of secs. 25 and 36, T. 17 S., R. 6 E., monumented with an iron post, 2½ ins. diam., projecting 6 ins. above a mound of stone, with brass cap, mkd. as described in the official record of the 1968-69 dependent resurvey of the E. bdy. of T. 17 S., R. 6 E.

From this point, the closing cor. of secs. 30 and 31, T. 17 S., R. 7 E., bears S. 0° 20' E., 7.77 chs. dist.

N. 0° 18' W., on the E. bdy. of sec. 25.

Over rough and broken mountainous terrain; asc. over steep rocky S slope.

20.12 Point for the S 1/16 sec. cor. of sec. 25.

Set an aluminum post, 30 ins. long, 2½ ins. diam., 12 ins. in the ground to bedrock, and in a mound of stone, 3½ ft. base, to top of aluminum cap, mkd.

T 17 S  
R 6 E R 7 E  
S 1/16 |  
S 25 |  
1984

Cor. is located near W edge of sandstone boulder and on steep W slope.

32.26 Point for the ¼ sec. cor. of sec. 30, T. 17 S., R. 7 E., hereinafter described.

40.24 The ¼ sec. cor. of sec. 25, monumented with a sandstone, 11 x 8 x 8 ins., firmly set, projecting 6 ins. above the ground and plainly mkd. ¼ on W face, from which the original bearing trees

A pine tree 24 ins. diam., bears N. 40° E.,  
25 lks. dist., mkd. ¼ S30 BT.

A cedar tree, 12 ins. diam., bears S. 44° W.,  
8½ lks. dist., mkd. ¼ S25 BT.

## Township 12 North, Range 9 West, Salt Lake Meridian, Utah

## CHAINS

The following field notes describe the dependent resurvey of a portion of the Third Standard Parallel North between Tps. 12 and 13 N., through Rs. 8 and 9 W., the west boundary, a portion of the east boundary, and a portion of the subdivisional lines of Township 12 North, Range 9 West, Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed byNORTH BOUNDARY (Third Standard Parallel North)

All J. Gorlinski 1871

WEST BOUNDARY

All J. Gorlinski 1871

SUBDIVISIONAL LINES

G. Boutelle 1871

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 624, Utah, dated December 13, 1982.

The direction of lines were determined by reference to true meridians established on line by hour angle observations on Polaris. The lines were carried forward by sustained angulation, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of the township, as assigned by U.S.G.S. and is designated as triangulation station "SEC. COR 36/12N/9W" by U.S.G.S., is as follows:

Latitude 41° 43' 03.224" N. Longitude 112° 48' 01.753" W.

Township 12 North, Range 9 West, Salt Lake Meridian, Utah

## CHAINS

The mean magnetic declination as protracted from U.S. Geological Survey "MAGNETIC DECLINATION MAP OF 1980" is 15° 30' E.

Dependent Resurvey of a Portion of the Third Standard Parallel North Between Tps. 12 and 13 N., Through R. 8 W., Salt Lake Meridian, Utah

(Restoring the Survey Executed by  
J. Gorlinski in 1871)

Beginning at the standard corner of secs. 32 and 33, on the S. bdy. of T. 13 N., R. 8 W., monumented with a limestone, 14 x 6 x 5 ins., firmly set, projecting 7 ins. above ground, and in a collar of stone, plainly mkd. 4 notches on E edge and 2 notches on W edge.

At the corner point

Set an aluminum post, 30 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, with aluminum cap mkd.

S C  
T 13 N R 8 W  
S 32 | S 33  
1983

Deposit the mkd. stone alongside the aluminum post.

Cor. is located NW of cor. of fences extending N, E and W.

S. 89° 15' W., along the S. bdy. of sec. 32.

Over rolling dry farm terrain.

39.64 Point for the standard 1/4 sec. cor. of sec. 32, at proportionate distance; there is no remaining evidence of the original corner.

Set an aluminum post, 30 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, with aluminum cap mkd.

S C  
T 13 N R 8 W  
1/4 | S 32  
1983

Cor. is located on the N side of fence line extending E and W.

79.28 Point for the standard cor. of secs. 31 and 32, at proportionate distance; there is no remaining evidence of the original corner.

Set an aluminum post, 30 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, with aluminum cap mkd.

## CERTIFICATE OF SURVEY

(I ~~XXX~~), Frank C. Profaizer, Jr.

, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 13th day

of December , 1982, (I ~~XXX~~) have dependently resurveyed a portion of the Third Standard Parallel North between Tps. 12 and 13 N., through Rs. 8 and 9 W.; the west boundary; a portion of the east boundary; and a portion of the subdivisional lines of T. 12 N., R. 9 W.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~XXX~~ and under (my) ~~XXX~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

## Township 41 South, Range 11 West, Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of the dependent resurvey of a portion of the south boundary, a portion of the west boundary, a portion of the subdivisional lines and a partial subdivisional survey of sections 29, 30, and 31, Township 41 South, Range 11 West, Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed bySOUTH BOUNDARY

Portion D. Buhler 1983

SUBDIVISION

Portion J.G. Burrill 1877

Portion Collier and Gentry  
1909

Portion Collier and Gentry 1909

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 642, Utah, dated November 18, 1983.

The directions of the lines of this survey refer to the true meridian determined by observations of Polaris and direct altitude observation of the sun. The lines were carried forward by sustained angulation throughout the progress of the survey.

Preliminary to the resurvey, the lines of the original survey were retraced and diligent search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of sec. 31 as determined from a tie made to U.S.G.S. triangulation station "CRATER HILL (BESS)," located in the NW corner of sec. 21, T. 41 S., R. 11 W., is:

Latitude 37° 10' 14.91" N. Longitude 113° 07' 36.33" W.

The mean magnetic declination as projected from U.S. Geological Survey "MAGNETIC DECLINATION MAP of 1980" is 14° E.

Dependent Resurvey of a Portion of the South Boundary,  
T. 41 S., R. 11 W., Salt Lake Meridian, Utah

CHAINS	Dependent Resurvey of a Portion of the South Boundary, T. 41 S., R. 11 W., Salt Lake Meridian, Utah

	General Description The area surveyed and resurveyed in T. 41 S., R. 11 W., is located approximately 3 miles east of the town of Virgin Utah. The elevation varies from 4500 ft. on a mesa in the NE 1/4 of sec. 29 to 3560 ft. where the Virgin River passes through the SW 1/4 of sec. 30.  The terrain varies from wooded river bottoms to sage covered benches and mesas vegetated with pinon and juniper.  Drainage is to the Virgin River which flows northwesterly through secs. 30 and 31.  Utah State Highway No. 15 follows the course of the north bank of the river through secs. 30 and 31.  The primary use of the land in this area is farming and livestock grazing.

## CERTIFICATE OF SURVEY

(I) ~~(WXX)~~ Richard A. Zaninovich, HEREBY

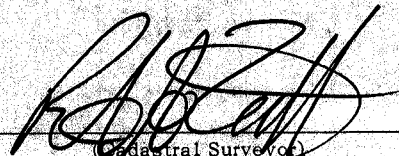

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 18th day

of November, 19 83, (I) ~~(WXX)~~ have dependently resurveyed a portion of the south boundary, a portion of the west boundary, a portion of the subdivisional lines; and surveyed a portion of the subdivisions of sections 29, 30, and 31 of T. 41 S., R. 11 W.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), (us) ~~(XXX)~~ and under (my) ~~(XXX)~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

July 18, 1984

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the south boundary, a portion of the west boundary, a portion of the subdivisional lines; and a survey of a portion of the subdivisions of sections 29, 30, and 31 of T. 41 S., R. 11 W., Salt Lake Meridian, Utah

executed by Richard A. Zaninovich, Supervisory Cadastral Surveyor  
having been critically examined and found correct, are hereby approved.

September 24, 1984

(Date)

  
(Chief, Cadastral Survey Branch, Bureau of Land Management)  
Chief Cadastral Surveyor for Utah

## CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in  
is a true copy of the original field notes.

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated September 8, 1982.

The directions of the lines of this survey refer to the true meridian as determined by hour angle observations of Polaris. The lines were carried forward by sustained angulation.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the cor. of secs. 27 and 28, as determined from a tie to U.S. Forest Service triangulation station "M-11," located in section 1, T. 18 S., R. 5 W., is as follows:

## Township 18 South, Range 4 West, Salt Lake Meridian, Utah

## CHAINS

Latitude 39° 12' 49.04" N. Longitude 112° 17' 46.53" W.

The mean magnetic declination as projected from U.S. Geological Survey "Magnetic Declination Map of 1980," is 14 1/2° E.

Reestablishment of the Survey Executed by  
Ferdinand Dickert in 1870

Beginning at the cor. of secs. 25, 30, 31, and 36, on the W. bdy. of the Tp., determined at the intersection of a gravelled road, bears E and W, and a fence bears N. This point is accepted as the best available evidence of the position of the original corner.

At the corner point

Set a railroad spike, 8 ins. long, flush with the surface, from which

An iron post, 30 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, for a reference monument, bears N. 45° E., 40 ft. dist., with brass cap, mkd. RM T18S R4W S30 40 FT 1982 and an arrow pointing to the corner.

An iron post, 30 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, for a reference monument, bears N. 45° W., 40 ft. dist., with brass cap, mkd. RM T18S R5W S25 40 FT 1982 and an arrow pointing to the corner.

N. 0° 06' E., bet. secs. 25 and 30.

40.42 Point for the 1/4 sec. cor. of secs. 25 and 30, at proportionate distance, there is no remaining evidence of the original corner, not monumented.

80.84 Point for the cor. of secs. 19, 24, 25, and 30, at proportionate distance, there is no remaining evidence of the original corner, not monumented.

N. 0° 06' E., bet. secs. 19 and 24.

40.42 Point for the 1/4 sec. cor. of secs. 19 and 24, at proportionate distance, there is no remaining evidence of the original corner.

Set an iron post, 30 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, with brass cap, mkd.

T. 18 S., R. 4 W., Salt Lake Meridian, Utah

## CHAINS

Cor. is located 2 lks. S of a fence, bears E and W, and 40 lks. E of a fence, bears N and S. Disparity in the alignment of fence lines in this area cast sufficient doubt as to which fence line or intersection, if any, was a perpetuation of the corner position.

80.84

The cor. of secs. 13, 18, 19, and 24, monumented with a concrete post, 6 ins. square, firmly set flush with the ground, with a Millard County brass cap mkd.

The area surveyed lies along the rolling foothills of the Canyon Mountains and ranges from 5000 to 5800 ft. above sea level. Several intermittent creeks drain southwesterly through the area.</p> <p>Juniper trees covered most of the area. However, just before the survey was completed a chaining operation was begun to remove the trees from much of the federally administered land that was surveyed.</p> <p>Several gravelled and dirt roads provide easy access to the area from State Highway No. 26.</p> <p>There are no permanent residents within the area surveyed.</p>

## CERTIFICATE OF SURVEY

(I) ~~XXX~~ Gary L. Kratz

, HEREBY

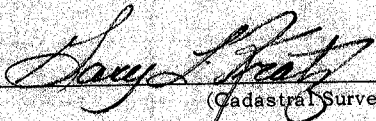

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 8th day

of September, 19 82 (I) ~~XXX~~ have dependently resurveyed a portion of the west boundary, a portion of the subdivisional lines, and a subdivisional survey of sections 19, 20, 21, 22, 28, and 29 of Township 18 South, Range 4 West

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~XXX~~ and under (my) ~~XXX~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

February 23, 1984

(Date)

(Cadastral Surveyor)  
Supervisory

(Date)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the west boundary, a portion of the subdivisional lines, and a subdivisional survey of sections 19, 20, 21, 22, 28, and 29 of Township 18 South, Range 4 West, Salt Lake Meridian, Utah

executed by Gary L. Kratz, Supervisory Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

January 8, 1985

(Date)

(Chief, Cadastral Survey, Bureau of Land Management)  
Chief Cadastral Surveyor for Utah

## CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in  
is a true copy of the original field notes.

SUBDIVISION

Portion F.R. Chappell and  
S. Schmidt 1954

The surveys were executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated September 18, 1984.

The directions of the lines of this survey were determined by reference to true meridians established on line by direct observations on Polaris. The lines were carried forward by sustained angulation being supplented by other observations on Polaris taken throughout the progress of the survey.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions lost corners were restored and monumented at proportionate positions based on the original record.

The geographic position of the southeast corner of section 35, as determined from a tie made to triangulation station "Harris", located in section 17, Township 37 South, Range 6 East, is:

Latitude 37° 37' 37.38" N. Longitude 111° 19' 03.28" W.

The mean magnetic declination is 13½° E.

## CERTIFICATE OF SURVEY

(I) ~~(We)~~ Gail E. Reynolds, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 18th day

of September, 19 84, (I) ~~(We)~~ have dependently resurveyed, and surveyed a portion of the subdivisional lines, and surveyed a portion of the subdivision of sections 34 and 35, T. 36 S., R. 5 E.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~(us)~~ and under (my) ~~(our)~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

December 27, 1984

(Date)

*Gail E. Reynolds*  
(Cadastral Surveyor)

(Date)

(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey, a survey and a partial subdivisional survey of sections 34 and 35, T. 36 S., R. 5 E. of the Salt Lake Meridian, Utah

executed by Gail E. Reynolds, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

January 4, 1985

SUBDIVISION

Portion                      F.R. Chappell      1954  
                                 and S. Schmidt

The surveys were executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated September 18, 1984.

The direction of the lines of this survey were determined by reference to true meridians established on line by direct observations on Polaris. The lines were carried forward by sustained angulation being supplemented by other observations on Polaris taken throughout the progress of the survey.

The geographic position of the southeast corner of section 13, as determined from a tie made to U.S.G.S. Triangulation Station "Harris", located in section 17, T. 37 S., R. 6 E., is:

Latitude 37° 35' 01.03" N. Longitude 111° 17' 57.39" W.

The mean magnetic declination is 13½° E.

Dependent Resurvey of a Portion of the Subdivisional Lines, T. 37 S., R. 5 E., Salt Lake Meridian, Utah

(Reestablishment of the Survey Executed by  
F. R. Chappell and S. Schmidt in 1954)

## CERTIFICATE OF SURVEY

(I) ~~XXX~~ Gail E. Reynolds

, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 18th day of September, 1984, (I) ~~XXX~~ have dependently resurveyed a portion of sections 1 and 12 and completed the survey of sections 4, and 9 through 15 of T. 37 S., R. 5 E.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~XXXX~~ and under (my) ~~XXXX~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

December 17, 1984  
(Date)

*Gail E. Reynolds*  
(Cadastral Surveyor)

(Date)

(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of sections 1 and 12 and the survey completing sections 4, and 9 through 15 of T. 37 S., R. 5 E., Salt Lake Meridian, Utah

executed by Gail E. Reynolds, Land Surveyor

having been critically examined and found correct, are hereby approved.

January 4, 1985  
(Date)

*Glen B. Hatch*  
~~XX~~  
Chief Cadastral Surveyor for Utah

## CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in is a true copy of the original field notes.

SUBDIVISION

Portion	J. Gorlinski	1870	
Portion			Jenkins and West 1897
Portion	Jenkins and West		
		1897	
Portion			C. Sylvester 1971-72
Portion			R. Baugh 1982

The resurvey and survey were executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 638, Utah, dated August 19, 1983.

The directions of all lines were determined by observations on Polaris and direct altitude observations of the sun. The lines were carried forward by sustained angulation throughout the sections.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of section 13, determined from tie made to U.S.C. & G.S. triangulation station "GEORGE", located in section 7 of T. 43 S., R. 15 W., is as follows:

## CERTIFICATE OF SURVEY

(I) (~~WE~~), Jerry L. Thomas, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 19th day

of August, 19 83, (I) (~~WE~~) have dependently resurveyed a portion of the east boundary (Pine Valley Guide Meridian), a portion of the subdivisional lines, and surveyed the meanders of the left bank of the Virgin River through section 12, and surveyed the subdivision of sections 12 and 13, T. 43 S., R. 16 W.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), (us) and under (my) (~~XXX~~) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

December 7, 1984

(Date)

*Jerry L. Thomas*  
(Cadastral Surveyor)  
Supervisory

(Date)

(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of the east boundary (Pine Valley Guide Meridian), a portion of the subdivisional lines, and survey of the meanders of the left bank of the Virgin River through section 12, and the survey of the subdivision of sections 12 and 13, T. 43 S., R. 16 W., Salt Lake Meridian, Utah

executed by Jerry L. Thomas, Supervisory Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

February 5, 1985

(Date)

*Glen B. Hatch*  
(Chief Cadastral Surveyor for Utah)  
Chief Cadastral Surveyor for Utah

## CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in  
is a true copy of the original field notes.

SUBDIVISIONAL LINES

A11	G. Boutelle	1872	
-----	-------------	------	--

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 625, Utah, dated December 15, 1982.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record.

The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the SE cor. of the township, as determined from a tie made to triangulation station "ANTS", located in section 20, T. 11 N., R. 14 W., Salt Lake Meridian, is as follows:

## Township 12 North, Range 14 West, Salt Lake Meridian, Utah

## CHAINS

Latitude  $41^{\circ} 42' 52.87''$  N. Longitude  $113^{\circ} 23' 00.23''$  W.

The mean magnetic declination, as projected from the U.S. Geological Survey Magnetic Declination Map of 1980, is  $15^{\circ} 30'$  E.

Dependent Resurvey of a Portion of the Third Standard Parallel North, on the South Boundary of T. 13 N., R. 13 W., Salt Lake Meridian, Utah

(Restoring the Survey Executed by G. Boutelle in 1872 and F. Dickert in 1882 and A.P. Hanson in 1893)

Beginning at the standard cor. of secs. 31 and 32, on the S. bdy. of T. 13 N., R. 13 W., monumented with a limestone,  $16 \times 7 \times 6$  ins., set in the center of an old scattering mound of stone. No visible marks on the stone.

At the corner point

Set an aluminum post, 30 ins. long,  $2 \frac{1}{2}$  ins. diam., 24 ins. in the ground, and in a mound of stone,  $3 \frac{1}{2}$  ft. base, to top of aluminum cap, mkd.

## Township 12 North, Range 14 West, Salt Lake Meridian, Utah

## CHAINS

Access is by way of State Highway No. 30. Further access to the township is provided by numerous secondary and desert trail roads.

The vegetation consists of scattering stands of juniper trees and shadscale, budsage, sagebrush, meadow grass and other sparse native grasses.

The principal use of the area is for livestock grazing and cultivation of alfalfa for dried feed fodder.

The improvements noted were: development of cultivation on ranches within sections 1, 2, 3, 4, 5, 7, 18, 19, 21, 22, 27, and 28.

## CERTIFICATE OF SURVEY

(I) ~~(We)~~ Frank C. Profaizer, Jr. , HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 15th day

of December , 19 82 (I) ~~(We)~~ have dependently resurveyed a portion of the Third Standard Parallel North on the south boundary of T. 13 N., Rs. 13 and 14 W., the south boundary, a portion of the east and west boundaries, portions of the subdivisional lines, and surveyed a portion of the subdivision of sections 1, 3, 10, 16, 17, 19, 22, 23, and 30 of T. 12 N., R. 14 W.,

of the Salt Lake Meridian, in the State of Utah , which are represented in the foregoing field notes as having been executed by (me), ~~(us)~~ and under (my) ~~(our)~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

SUBDIVISIONAL LINES

Portion	Wm. Lewman	1893	
Portion	G.D. Voorhees, et al	1959	
			G.D. Voorhees, et al 1959

The surveys were executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, the Special Instructions dated June 2, 1982, and the Supplemental Special Instructions dated May 19, 1983.

The direction of the lines of this survey were determined by reference to true meridians established on line by direct observations on Polaris. The lines were carried forward by sustained angulation being supplemented by other observations on Polaris taken throughout the progress of the survey.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

## Township 35 South, Range 2 East, Salt Lake Meridian, Utah

## CHAINS

The geographic position of the southeast corner of the township as determined from a tie made to U.S.G.S. triangulation station "ESCALANTE RIM", located in section 31, Township 35 South, Range 3 East, is:

Latitude 37° 42' 47.68" N. Longitude 111° 37' 23.02" W.

The mean magnetic declination is 14° E.

Dependent Resurvey of the Seventh Standard Parallel South  
Through a Portion of Range 2 East,  
Salt Lake Meridian, Utah

(Reestablishment of the Survey Executed by  
Wm. Lewman, Deputy Surveyor in 1893 and the  
Retracement and Resurvey Executed by  
G. Rigby, U.S. Cadastral Engineer in 1922)

Beginning at the standard cor. of Tps. 35 S., Rs. 2 and  
3 E., monumented with an aluminum post, set in a mound  
of stone, with aluminum cap, mkd. as described in the  
official record of the 1980 resurvey of T. 35 S., R. 3 E.

S. 89° 36' W., on the S. bdy. of sec. 36.

Over broken mountainous land, through pinon and juniper.

23.00 Bottom of canyon, Alvey Wash, drains N.

40.30 The standard  $\frac{1}{4}$  sec. cor. of sec. 36, monumented with a  
sandstone, 30 x 14 x 10 ins., firmly set 12 ins. in the  
ground and plainly mkd.  $\frac{1}{4}$  on N face, from which the  
original bearing tree

A pinon, 14 ins. diam., bears N. 39° E., 30 lks.  
dist., mkd. SC  $\frac{1}{4}$  BT. (Record, N. 33° E., 29 lks.  
dist.)

At the corner point

Set an aluminum post, 30 ins. long, 2½ ins. diam., 14 ins.  
in the ground to bedrock, and in a mound of stone, 4 ft.  
base, to top of aluminum cap, mkd.

S C  
T 35 S R 2 E  
 $\frac{1}{4}$  S 36  
1983

Deposit the mkd. stone in mound alongside the aluminum  
post.

Cor. is located on a broken E slope.

S. 89° 36' W., beginning new measurement.

27.31 The angle point for secs. 1 and 36, monumented with a  
sandstone, 22 x 14 x 6 ins., firmly set in a mound of  
stone, and plainly mkd. 1 groove on E and 5 grooves on  
W., witnessed by a mound of stone, 4 ft. base, 3 ft.  
high, N of cor.

Dependent Resurvey of the Seventh Standard Parallel South  
Through a Portion of Range 2 East, Salt Lake Meridian, Utah

## CHAINS

At the angle point

Set an aluminum post, 30 ins. long,  $2\frac{1}{2}$  ins. diam., 10 ins. in the ground to bedrock, and in a mound of stone,  $3\frac{1}{2}$  ft. base, to top of aluminum cap, mkd.

AP  
T 35 S R 2 E  
S 36  
S 1  
T 36 S R 2 E  
1983

Deposit the mkd. stone in mound alongside the aluminum post.

Cor. is located on top of rim, bears NE and SW.

S.  $89^{\circ} 41'$  W., beginning new measurement.

10.70 The closing cor. of secs. 1 and 2, T. 36 S., R. 2 E., monumented with an iron post, 2 ins. diam., with brass cap, mkd. as described in the official record of the 1922 survey.

11.25 The standard cor. of secs. 35 and 36, monumented with an iron post, 2 ins. diam., extending 10 ins. out of the ground, with brass cap, mkd. as described in the official record of the 1922 resurvey.

Cor. is located on NW slope in pinon, fir, and juniper.

From the standard cor. of secs. 31 and 32, monumented with an iron post,  $2\frac{1}{2}$  ins. diam., set in a mound of stone with brass cap, mkd. as described in the official record of the 1959 resurvey.

S.  $89^{\circ} 37'$  W., on the S. bdy. of sec. 31.

Over broken mountainous land, through ponderosa pine, pinon, fir, and juniper.

39.80 The standard  $\frac{1}{4}$  sec. cor. of sec. 31, monumented with a sandstone, 20 x 12 x 6 ins., firmly set 12 ins. in the ground and plainly mkd.  $\frac{1}{4}$  on N face, from which the original bearing trees

A juniper, 6 ins. diam., bears S.  $8^{\circ}$  E., 48 lks.  
dist., mkd.  $\frac{1}{4}$  S BT. (Record, S.  $7^{\circ}$  E.)

A pinon, 8 ins. diam., bears N.  $45^{\circ}$  W., 11 lks.  
dist., mkd.  $\frac{1}{4}$  S BT. (Record, N.  $40^{\circ}$  W.)

At the corner point

Set an aluminum post, 30 ins. long,  $2\frac{1}{2}$  ins. diam., 20 ins. in the ground, and in a mound of stone,  $3\frac{1}{2}$  ft. base, to top of aluminum cap, mkd.

	<p style="text-align: center;">General Description</p> <p>Township 35 South, Range 2 East, is located 1½ miles west of the town of Escalante, Utah. The elevation varies from 5800 to 7200 ft. above sea level. The soil varies from clay on the slopes to sandy loam in the valley. The area surveyed is mostly broken mountainous land, covered with pinon and juniper growth. Sections 11 and 12 have some cultivated farms and pasture land. North Creek, Birch Creek and Upper Valley Creek join together in section 16, forming the Escalante River, which flows easterly leaving the township in section 12. Wide Hollow Reservoir is located in sections 1, 2, 11, and 12.</p> <p>Highway 54 enters the township in section 30 and leaving in section 12.</p> <p>No mineral activity was noted in the township, but indications of coal were sighted throughout the township.</p> <p>The Escalante Petrified Forest State Park is located in the north and east portion of the township.</p> <p>The mean magnetic declination is 15½° East.</p>

## Township 22 South, Range 6 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of the dependent resurvey of a portion of the north boundary, a portion of the subdivisional lines and a partial subdivisional survey of sections 3 and 4, T. 22 S., R. 6 E., Salt Lake Meridian, Utah.

History of Surveys

Surveyed by                      Retr. or Resurveyed by

EAST BOUNDARY (Second Guide Meridian East)

All	A.D. Ferron	1873	
All			H.W. Miller and 1910 A. Nelson
All			G.B. Hatch and 1978 F. Reynolds

NORTH BOUNDARY

Portion	A.D. Ferron	1873	
Portion	H.W. Miller	1918	
Portion			H.W. Miller 1918
Portion			G.B. Hatch and 1978 F. Reynolds

SOUTH BOUNDARY

All	A.D. Ferron	1873	
Portion			H.W. Miller 1918
All			G.B. Hatch and 1978 F. Reynolds

WEST BOUNDARY

Portion	A.D. Ferron	1873	
Portion			H.W. Miller 1918
Portion			G.B. Hatch and 1978 F. Reynolds

SUBDIVISION

Portion	A.D. Ferron	1873	
Portion	H.W. Miller	1918	
Portion			H.W. Miller 1918
Portion			G.B. Hatch and 1978 F. Reynolds

The resurvey and survey were executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 651, Utah, dated April 13, 1984.

The directions of all lines were determined by observations on Polaris and direct altitude observations of the Sun. The lines were carried forward by sustained angulation throughout the township.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

Township 22 South, Range 6 East, Salt Lake Meridian, Utah

## CERTIFICATE OF SURVEY

(I) ~~(We)~~, Jerry L. Thomas, Cadastral Surveyor, HEREBY  
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 13th day  
 of April, 1984, (I) ~~(We)~~ have dependently resurveyed a portion of  
 the north boundary, a portion of the subdivisional lines and surveyed a  
 portion of the subdivisions of sections 3 and 4 of T. 22 S., R. 6 E.,

of the Salt Lake Meridian, in the State of Utah, which  
 are represented in the foregoing field notes as having been executed by (me), ~~(us)~~ and under (my)  
~~(our)~~ direction; and that said survey has been made in strict conformity with said special instruc-  
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in  
 specific manner described in the foregoing field notes.

April 18, 1985

(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
 Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the north  
 boundary, a portion of the subdivisional lines, and a partial subdivisional  
 survey of sections 3 and 4 of T. 22 S., R. 6 E., Salt Lake Meridian,  
 Utah

executed by Jerry L. Thomas, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

April 25, 1985
